Summary

Highly organized and motivated developer with a a strong foundation in front-end technologies and a growing proficiency in back-end development. Demonstrated expertise in React.js and bootstrap along with practical experience in Node.js, Express.js and MongoDB. Proven ability to bring mock-ups to life, create user friendly websites and develop full-stack applications. Dedicated to continuous learning and staying current industry trends. Seeking opportunities to leverage my technical skills, contribute to innovative projects and support company growth.

Experience

Independent Frontend Developer
September 2023 - Present

- Brought mock-ups to life with HTML, CSS and JavaScript.
- Created successful websites that met requirements for objectives such as load speed and design.
- Continued self-education and training to keep up with industry changes and trends.
- Successfully completed an online course on web development, worked on some projects using React Js which include some major projects and several mini projects.
- Got familiar with backend technologies (Node and Express Js) and a database (MongoDb) at entry level and worked on a project using them on a practical note, moreover learnt things like git and github.

Education

Islamic University of Science and Technology, Awantipora Pulwama
Bachelor of Computer Science and Engineering
7.0 GPA
